Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. Claims 1-24 are generic to a plurality of disclosed patentably distinct species comprising:

Species I. (claims 1-11 and 18-24) comprising a pressure port defining an inlet channel; a diaphragm located at an end of the inlet channel; a header assembly coupled to the pressure port defining a reference pressure chamber on an obverse side of the diaphragm from the inlet channel, wherein the header assembly comprises pass-through electrical connections to communicate electrical signals from inside the reference pressure chamber to outside the reference pressure chamber; and an interface board located in the reference pressure chamber configured to connect one or more sensing elements in the reference pressure chamber to the pass-through electrical connections of the header assembly.

Species II (claims 12-17) comprising all of the above elements including a shell and glass metal to metal seals

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
